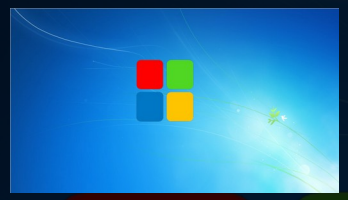
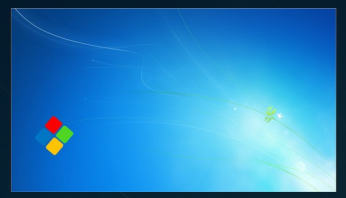
# Pick your wallpaper.





Your wallpaper is used as your background, you can always change it later in settings.

Next

# Choose an account type.

Choose if you want to use a Microsoft Account, or if you want to just have a local account.

## Microsoft Account

A Microsoft Account is used to sync your devices, use find my, and  to backup your device, and use OneDrive.

## Local Account

A Local Account is the classic experience, which can be used with all of the basic features, for example Microsoft Teams, and you can still download apps from the Microsoft Store.

# Select your taskbar

Do you want a floating taskbar, or do you want the normal one, well, you can choose here, and you can always change it in settings.

## Floating Taskbar

The floating taskbar is useful if you have a lot of apps open, and you want to make the taskbar expand.

## Normal Taskbar

The classic experience, with no floating taskbar, you can have it very big, and you don’t have to worry about it expanding.
